

AMF Plus Network Automation Savings Report

AMF PLUS

AMF Plus saves you time and money on everyday network administrative tasks.

This report explains the savings you can expect for your network.

Switches

NaN

Cost / Hour

\$NaN

Installation

AMF Plus simplifies provisioning of new devices, streamlining network expansion. Build the configs and AMF Plus automatically initiates their distribution when an authorized device first connects to the network.

	Without AMF		With AMF	
	Per Unit	All Unit	Per Unit	All Unit
Preparation time (Installing configs and testing)	1h 0m	1h 0m	1h 0m	1h 0m
Configuration time (Adding a config to each switch)	0h 15m	NaNh NaNm	0h 3m	NaNh NaNm
Total installation time	NaNh NaNm		NaNh NaNm	

Operation

AMF Plus saves you time on many daily admin tasks, like network backups, firmware updates and device configuration, freeing up your IT staff to work on more important projects.

	Without AMF		With AMF	
	Per Unit	All Unit	Per Unit	All Unit
Time to backup daily (Backup all switches, firmware and configs)	0h 5m	NaNh NaNm	0h 0m	NaNh NaNm
Time to update firmware (Apply firmware updates to all switches)	0h 15m	NaNh NaNm	0h 3m	NaNh NaNm
Total operation time	NaNh NaNm		NaNh NaNm	

Unit Recovery

AMF Plus can recover a failed unit with zero-touch. Someone need only install a replacement switch and power it up -- no config is required -- reducing business disruptions and saving you time and money.

	Without AMF	With AMF
Time to recover a switch (install firmware and config)	1h 0m	0h 15m

Your Savings

	Without AMF	With AMF	
Installation cost (total installation time x rate)	\$NaN	\$NaN	NaN% SAVINGS
Operational cost (total operation time x rate)	\$NaN	\$NaN	NaN% SAVINGS
Unit recovery cost (total recovery time x rate)	\$NaN	\$NaN	NaN% SAVINGS

Note that these estimates do not include travel time and costs.

If your devices are in remote locations, the savings are greater because AMF zero-touch management means local staff can rack and stack while you administer remotely!
